ABOUT US

In Şanlıurfa since 2010

Desa Bilişim was founded in 2010 on computer and security systems. Alongside the services we provide to end users, we take an active part in all low-voltage projects: security cameras, fire and burglar alarms, network, PA, access control and more.

Our vision

To be a reliable technology partner that brings new technology together with sustainable solutions. To make living spaces safer and more efficient with the systems we install.

2010	12	6	6	9
Year founded	Solution areas	ISO management system certificate	Authorized dealer certificate	Projects completed in the province

Our mission

- Quality and economical product options
- Projects that benefit people and nature
- Identifying the need correctly
- Qualified team, standard materials
- Quality at every stage
- Care for occupational health and the environment
- Service where and when you need it
- Relationships with the warmth of family

Our values

- Quality products and services
- Innovation
- Keeping our commitments
- Valuing people and their work
- Respect for nature
- Loyalty to people and institutions
- Honest dealing, principled stance
- Speed in decision and action

ISO 9001:2015 Quality Management System

ISO 14001:2015 Environmental Management System

ISO 45001:2018 Occupational Health and Safety

ISO 10002:2018 Customer Satisfaction

WHY DESA

Installing the system is not the end; we stay by your side

Working in hospitals, schools and municipalities

The systems we installed at Eyyübiye Training and Research Hospital, the Harran University Library, TOKİ housing and more than 85 schools are in use every day.

Certificates public, dates shown

Our 6 ISO management system certificates (9001, 14001, 45001, 10002, 31000, 26000) and our TSE Service Competence Certificate are published; you can see the validity date of each.

From an authorised dealer, warranty in writing

We sell and install Dahua, Cede, Westa and Decon products with authorisation certificates. Devices come with the manufacturer's warranty; the warranty period is written in the quote for each device.

Still with you after installation

You report a fault in a minute and follow on your phone when a technician is assigned and on the way. When your yearly maintenance is due, we remind you.

How we work

1

We listen to you

We talk about your needs, your building and your budget.

2

We inspect and plan on site

We see the space and decide together on the right system for you.

3

We install with care

Our expert team completes the installation neatly and tidily.

4

We stay by your side

We show you how to use it and keep supporting you afterwards.

Let's take the first step together
Describe your needs in about a minute with the quote wizard.

OUR SOLUTIONS · 01 / 12

Security Cameras

Camera and recording systems for schools, homes and businesses.

It's reassuring to check your phone and see that everything is fine. We install the right camera for your space, in the right place, with a clear picture.

What we do

- Indoor and outdoor IP camera installation
- Recorder and storage planning
- Live viewing from your phone and computer
- Night vision and wide-angle cameras
- Upgrading and maintaining existing systems

Brands we work with

Dahua · mobiliz · PELCO · FUJITRON · HIKVISION · Honeywell · Tiandy

What you gain

- See your place wherever you are
- Replay the moment of an incident with clear footage
- Blind spots are reduced because the cameras are in the right places

Where it is used

Schools · Businesses · Housing estates · Homes

OUR SOLUTIONS · 02 / 12

Fire Alarm

Early warning, calm evacuation: catch a fire before it grows.

In a fire, time is the most valuable thing. We install systems that detect smoke and heat at the very first moment and warn everyone in the building in time.

What we do

- Addressable and conventional fire alarm panels
- Smoke, heat and gas detectors
- Sounders, strobes and manual call points
- Regulation-compliant design
- Periodic maintenance and testing

Brands we work with

mavili · CODESEC · FUJITRON · Honeywell · teknim

What you gain

- Smoke and heat are detected right away
- Everyone in the building is warned at the same time
- Time is gained for evacuation

Where it is used

Schools · Public buildings · Factories and warehouses · Hospitals and clinics

Related resources

OUR SOLUTIONS · 03 / 12

Burglar Alarm

Know your place is safe even when you are away.

Alarm systems that detect intrusion instantly with door, window and motion sensors, and notify you and your loved ones.

What we do

- Wired and wireless alarm panels
- Door-window and motion sensors
- Phone notifications and remote arming
- Sirens and warning devices
- Working together with the camera system

Brands we work with

Dahua · HIKVISION · teknim

What you gain

- Unauthorized entry is noticed immediately
- The news reaches you and your family
- Arm and disarm the alarm from your phone

Where it is used

Homes · Businesses · Stores · Warehouses

Related resources

OUR SOLUTIONS · 04 / 12

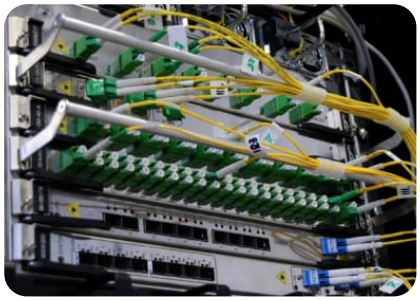

Network Infrastructure

Fast, uninterrupted internet in every room.

No more rooms without a signal or connections that keep dropping. From cabling to wireless, we build your building's entire network infrastructure neatly and securely.

What we do

- Structured cabling (Cat6, fiber)
- Enterprise wireless network (Wi-Fi) installation
- Switches, routers and firewalls
- Rack organization and labeling
- School and campus network projects

Brands we work with

aruba · CISCO · tp-link

What you gain

- Tidy, fast connectivity in every room
- Easy fault tracing with labeled cabling
- Cameras and systems run on the same infrastructure

Where it is used

Schools · Businesses · Public buildings · Hotels

OUR SOLUTIONS · 05 / 12

Solar Power

Rooftop and ground-mounted solar power systems.

Şanlıurfa is a city with plenty of sunshine. We plan and install systems that turn the sun on your roof or land into electricity, based on your needs.

What we do

- Rooftop solar systems
- Ground-mounted installations
- Grid-connected and off-grid (battery) systems
- Solar solutions for agricultural irrigation
- Monitoring and maintenance

Brands we work with

ALFA SOLAR ENERJİ · solinved

What you gain

- You turn the sun on your roof into electricity
- You offset your electricity bill with your own production
- You monitor production from your phone

Where it is used

Homes · Businesses · Farmland · Factories

Related resources

OUR SOLUTIONS · 06 / 12

Smart Building

Lights, climate and energy in one tap.

Control lighting, blinds, climate and security from a single app. We build spaces that add comfort and use energy wisely.

What we do

- Lighting and blind automation
- Climate control
- Scene and schedule settings
- Remote control from your phone
- Integration with security systems

Brands we work with

+13 marka

What you gain

- Light, curtains and climate in one app
- Daily tasks happen on their own with scenarios
- Energy is used where and when it is needed

Where it is used

Homes · Villas · Offices · Hotels

OUR SOLUTIONS · 07 / 12

Barriers & Gates

Orderly, secure access at the car park and entrance.

Automatic barrier and gate systems that manage vehicle and pedestrian access, from housing estate entrances to factory parking lots.

What we do

- Automatic parking barriers
- Sliding and swing garden gates
- License plate recognition and remote control
- Turnstiles and pedestrian access systems
- Maintenance and repair

Brands we work with

Dahua · ZKSoftware · Nice · ZGRM

What you gain

- Vehicle and pedestrian traffic flows in order
- Authorized vehicles pass without waiting
- Entries and exits are recorded

Where it is used

Housing estates · Factories · Public buildings · Parking lots

Related resources

OUR SOLUTIONS · 08 / 12

PA & Announcement

Clear sound for everyone at school, at the mosque, at the facility.

From the school bell to emergency announcements, from conference halls to mosques: we install sound systems that reach every corner clearly and evenly.

What we do

- School bell and PA systems
- Voice evacuation and emergency announcement systems
- Conference and meeting room sound systems
- Mosque sound systems
- Background music broadcasting

Brands we work with

westa · DECON audio systems · FUJITRON · Honeywell

What you gain

- Clear, balanced sound in every zone
- Bell, announcements and music from one system
- Everyone is reached at once in an emergency

Where it is used

Schools · Mosques · Conference halls · Facilities

OUR SOLUTIONS · 09 / 12

Access Control

Who entered and when is on record: by card or fingerprint.

Let only authorized people in, and keep every entry and exit on record. Card, PIN, fingerprint and face recognition access and staff attendance systems.

What we do

- Card and PIN door locks
- Fingerprint and face recognition terminals
- Staff time & attendance (PDKS) tracking
- Turnstile integration
- Reporting software setup

Brands we work with

mobiliz · ZKSoftware · Nice · aruba · cisco · HIKVISION · Honeywell · Tiandy · +1 marka

What you gain

- Only authorized people get in
- Entry and exit times are reported
- Entry by card, PIN, fingerprint or face

Where it is used

Businesses · Schools · Factories · Public buildings

OUR SOLUTIONS · 10 / 12

Vehicle Tracking

Your fleet on the map, your reports in hand.

See in real time where your vehicles are, which route they take and how far they travel; manage your fleet with ease.

What we do

- GPS vehicle tracker installation
- Live location and route history
- Speed and zone alerts
- Fuel and mileage reports
- School bus and fleet solutions

Brands we work with

mobiliz

What you gain

- Your vehicles on the map, in real time
- Past route and mileage reports
- Control with speed and zone alerts

Where it is used

Fleets · School buses · Logistics companies · Municipalities

OUR SOLUTIONS · 11 / 12

Server Rooms

A cool, orderly, secure room for your servers.

We design and build well-organized, protected server rooms with proper climate control for the servers and network devices your whole business depends on.

What we do

- Cabinet and rack layout
- Cable management and labeling
- Uninterruptible power supply (UPS)
- Cooling and temperature monitoring
- Access control and cameras

Brands we work with

dahua · mobiliz · ZKSoftware · ALFA SOLAR ENERJİ · aruba · CISCO · HIKVISION · +5 marka

What you gain

- Devices in a cool, tidy room
- Prepared for power outages with a UPS
- Temperature and access are recorded

Where it is used

Institutions · Schools · Hospitals · Businesses

OUR SOLUTIONS · 12 / 12

Central TV

Broadcast to every apartment in the building from a single antenna.

With a single antenna and satellite system on the roof, we deliver a clear signal to every apartment, room or classroom in the building, and the rooftop clutter is gone.

What we do

- Central satellite and antenna systems
- Distribution lines for apartment buildings and housing estates
- TV systems for hotels and dormitories
- Signal measurement and improvement
- Repair and maintenance service

What you gain

- Clear reception in every apartment from a single antenna
- No more antenna clutter on the roof
- One point to respond to a fault

Where it is used

SOLUTION BY PLACE

Areas we serve

Every place has different needs. In a school, bells and PA come first; in a factory, wide-area cameras and fire detection; in a housing estate, barriers and central TV.

Schools

Cameras, bells and PA, network and fire alarm.

Homes and villas

Alarms, cameras, smart home and solar power.

Businesses

Access control, network and security systems.

Public buildings

Security, communication and infrastructure solutions.

Factories and warehouses

Wide-area cameras, fire and vehicle tracking.

Housing estates and apartment buildings

Barriers, central TV and common-area security.

Places where we install

Schools · Homes · Businesses · Housing estates · Public buildings · Factories and warehouses · Mosques · Hospitals and clinics

Let's see your place

Let's determine your needs on site and plan the right system for you together.
